Projects we have or are working on:-

- Australian Standards AS4204 – 2018 review and update
 - South Australia was heavily involved in the review of AS4204. Chris Tillett and Sav Chesini represented our Association at meetings in Sydney and Melbourne. We submitted many recommendations and proposed changes. The majority of which were accepted in some format or other.
 - A hard copy of the new standard is now available (from 1.4.2019) from SAI Global and a cost of \$128
 - A seminar will be organized with our Members to bring them up to date on the changes.
- **New Constitution**
 - Our old Constitution is just that – Old!
 - Work is ongoing in having it updated and made more relevant
- **Member Inspections and Compliance**
 - It is envisaged over the next 6 – 12 months that we will visit each of our Full Members to:-
 - Conduct a compliance audit
 - Check their WH&S policies and procedures

Licensing system for Monumental Masons

- We continue to work with CCASA to ensure that the state-wide licensing system is ongoing and improved where necessary
- We as an Association would like to see not only our Members CCASA compliant, but all other Monumental Masons who operate through out the state
- CCASA are working towards this outcome, but each and everyone of you can speed up this process and insist that any Mason who wants to work in your cemeteries must as a minimum, be CCASA compliant

- **Liaison with other stake holders**
- We as an Association continue to work solidly with Cemeteries and Funeral Directors to ensure a cooperative and productive outcome for all
